

INTALERESM
ELEVATING THE HEALTH OF HEALTHCARE

Intalere Supply Chain Optimization Solutions

Process Driven Performance Improvement

Representing 25 percent of a healthcare provider's budget, the supply chain holds significant opportunities for savings. Healthcare providers prioritize improvement initiatives for maximum bottom-line impact and gain assessment and implementation assistance with Intalere's supply chain solutions, which deliver an average of 4-7 percent savings.

Our solutions offer a proven strategy for reducing high-dollar supply chain inefficiencies. This approach brings physicians, healthcare executives and materials managers together to work toward a common goal of reducing supply chain costs while improving patient care.

Our Value

Intalere's supply chain program is designed to facilitate savings by:

- Operational and staffing assessment.
- Savings identification and implementation.
- Best practice use of automation.
- Value analysis establishment and implementation.
- Analysis of benchmarks and trending.
- Contract utilization assessment.
- Outcome-based contracting.
- Product evaluation assessment.
- Item Enhancement Service.

Performance improvement solutions support the clinical transformation of creating an integrated delivery of care achieving extraordinary results through:

- Waste recovery analysis.
- Evaluating need to link Charge Master to Item Master.
- Inventory assessment.
- Value analysis team implementation.
- Establishing a clinical product procurement process that addresses site specific needs, i.e. JIT, throughput process by area.
- Elimination of process redundancy.

"To have all this great customer service and save the company more than 60 percent was a true benefit of Intalere membership. Intalere never ceases to amaze me with their commitment providing members with the best quality and pricing for the products they need."

Brian Paul
**Purchasing Manager/
Special Procedures Department
Seattle Radiologists**
