

# Intalere Population Health Management Solutions

**Population health management (PHM)** is the foundation of the new pay-for-performance model of healthcare delivery. It will mean proactively engaging populations and maintaining continuity of care through a system focused on prevention, community-level accountability for improving health, and services that are person-centered, provide choice and emphasize independence.

Intalere and its partners offer comprehensive solutions that help identify and manage at-risk patient populations, match interventions and improve clinical and financial outcomes.

PLANNING AND STRATEGY							
Network Development		Practice Transformation	Care Coordination				
Patient Risk Mgmt. & Analytics	HIE & Interoperability (Health Information Exchange)	Improving Physician Performance & Alignment	Patient Centered Medical Homes	Telemedicine, Virtual Care, Remote Patient Monitoring	Seamless Care Coordination	PBM/Disease Management (Employer Groups)	Specialty Pharmacy Patient Mgmt. Services
