

# ARTESIAN ACADEMY

## Artesian Certification

Know that your teams are maximising the insights they receive and getting the most from their Artesian profiles by staying up to date with the latest Artesian features and best practice.

There are two ways to complete your Artesian Certification:

- Attend a face to face workshop
- Complete the online course in the Artesian Academy

Certification is valid for one year. Individuals are prompted to re-certify via the online Academy course. This keeps your teams up to date with all the latest features to maximise their Artesian service.

Stand out on LinkedIn by adding the Artesian certification to a LinkedIn profile.

## Online Certification Modules

A series of short interactive online courses, designed to provide a comprehensive Artesian education.

## New User Workshops

Three core modules, delivered in a 2 hour workshop.

Three additional elective modules, 15 minutes each.

Activities based on each module allow the user to practice each new skill

## Refresher Workshops

After your initial training and certification, keep your teams up to date with regular refresher workshops and webinars.

Customise and build your custom workshops from a choice of 10 individual modules.

## Broaden skills with additional Academy Resources:

## Report on completions

Keep track of course completions and attendance at a workshop or webinar.

Track and report on all courses undertaken and reward those who upskill themselves.

Ensure each of your team members completes courses you set and is certified on Artesian.
