More Power to Report – the Way You Want

## **New Reporting Functionality Delivers Unprecedented Visibility and Control**

Effectively managing your lien portfolio is key to maintaining the protections you've put in place. But, you can't manage what you can't see, and you can't improve what you can't control. No matter how many liens you maintain, it's essential to have end-to-end transparency across your portfolio, along with the tools to manage it. That takes robust reporting functionality with the flexibility and scalability to keep you in the know and in control. That's why Lien Solutions continues to advance our reporting capabilities to provide the data you want, when you need it. Premium Reports equips you to enhance your lien operations while improving quality, increasing efficiency and reducing costs.

## **Flexibility and Scalability Put You in Charge**

With iLien Premium Reporting, the control is in your own hands offering an easy to use self-service capability. Premium Reporting provides functionality that bends to your particular needs and scales based on the size and complexity of your liens:

- **ROBUST CONTENT** – Get valuable insights about your lien operation – such as quality, efficiency, cost and more.
- **FLEXIBILITY AND CUSTOMIZATION** – Modify existing out-of-the-box reports – and create your own templates to meet the needs of your stakeholders.
- **CONVENIENT DELIVERY** – Schedule reports on your timeframe – and have them automatically emailed to designated recipients.
- **ABILITY TO ALERT** – Control report emails based on the data within the report.
- **SIMPLIFY REPORTS ON MULTIPLE ACCOUNTS** – If you have multiple accounts or teams, you have flexibility to run reports at different levels of the organization. This gives you top-down or bottom-up views of your operations.
- **A BETTER EXPERIENCE** – Our highly scalable architecture handles large data-sets with faster performance – all with a user interface that's intuitive to use and easy to learn.
- **ONE STOP FOR FILINGS** – Gain visibility across all your liens from one vantage point – managing all your reports with one tool.

*We're simplifying complexity. iLien now makes extensive data readily available via an easy to use self-service reporting option.*

Filing and managing your Uniform Commercial Code (UCC) statements is a journey. At every step on the path to maintaining protection, Lien Solutions is here. We give you the tools and support that provide visibility, automation and control as you manage the ongoing health of your liens.

#### **More to like about iLien**

Our reporting capabilities are all housed within the iLien application. So, you can use the same great tool to do even more. We offer standard out of the box templates that can be used at a starting point. From there, the choices are yours: Our report builder allows you to select additional criteria, apply filters, add columns and save the selections for future use. So, you have the flexibility to manage your portfolio the way that suits your workflow and your business best.

#### **Benefits Aboard**

- Pull data simply and quickly – on demand
- Choose which data you want and when you want it!
- Generate and schedule reports across all your liens
- Improve efficiency to save time and costs
- Use reports to streamline/measure processes

#### **Designed with You in Mind**

Our reporting capability is another sign of our commitment to be a true partner to you. We're putting more options and extensive data in your hands – when you want, and the way you want. We've designed the functionality with you in mind, so that it's easy to choose your desired reports and have them generate automatically to meet your timeframe. You get flexibility, scalability, ease of use and quick access to vital information. And, it's all delivered within the iLien solution that already makes it easier and more efficient to manage your lien portfolio.

iLien's Premium Reporting is yet another "Manage" capability focused on helping you with end-to-end management of your lien portfolio. When combined with Monitoring, Auto-Continuation, Search and File Automation, Data and Image Repository we offer an unparalleled set of capabilities to enhance your lien operations while improving quality, increasing efficiency and reducing costs.
