

# Promotion: MPH2™, Managed Rack PDU

**You will save big with Ingram Micro instant rebates when you order Emerson Network Power MPH2™ Rack PDUs now through October 31, 2016!**

## Benefits and Features of the MPH2 Rack PDU:

- Local displays are easily located to suit a crowded and changing rack environment
- Supports mounting in 19" EIA, 42U rack environments -- Offered in vertical, zero U and rackmount form factors
- Provides a compatible monitoring platform for MPH2 and MPX™ rack PDUs, offering seamless common operation if deployed together
- User positioned input power cord interface

## Higher Availability

- Controls and manages individual receptacles
- Predicts overcurrent conditions before they become critical
- Shuts down non-essential equipment during power outages to maximize availability and back-up power
- Expanded branch overload protection minimizes threat of cascading PDU overload
- Industry leading operating temperature -- up to 60°C / 140°F to support hot internal rack environments
