Peoplesoft Upgrades

At eVerge Group, we understand that every organization is different and flexibility is key. That's why our upgrade solution begins with an assessment of your existing PeopleSoft system. As your upgrade partner, we will help you identify the ideal PeopleSoft configuration that will provide the greatest ROI for your organization.

Our Peoplesoft consultants will help you to answer questions such as:

- How long will it take?
- What is the most cost efficient way to upgrade when we have limited resources available?
- Can we implement new features or modules during an upgrade?

Upgrade Solution Components

The solution that's right for your organization may include one or more of the following services:

Functional Assessment Learn about new functionality and the impact it will have on your exiting processes and customizations

Technical Assessment Before your upgrade, make sure your current application architecture environment is ready

Supplemental Upgrade Staff Add temporary team members for an upgrade to prevent a drain on your resources

Remote Services Upgrade Our expert team will remotely access your environment to perform the upgrade

Additional Functionality Implementations When adding functionality or modules during an upgrade, our team will help you on site
