

Peoplesoft ERP and HCM

Ensuring that your solutions work in conjunction with your current IT environment requires functional and technical expertise, along with extensive knowledge of the applications. For more than 20 years eVerge Group has been doing exactly that for our Peoplesoft clients to help them gain a competitive edge and improve their business processes.

Why eVerge Group

Our consultants deliver the highest quality implementation and integration services in a rapid, cost-effective manner by combining broad functional knowledge and industry expertise.

Our Peoplesoft team is proven and will bring the following benefits to your next project:

- Implementing PeopleSoft since release 3.0
- Oracle Platinum Partner with Peoplesoft specializations
- Iterative prototyping to shorten the implementation timeframe
- Experience developing integrations with Kronos, third party payroll systems and other legacy applications
- Utilize "out-of-box" functionality as much as possible to reduce customizations and cost of on-going maintenance
- Knowledge transfer after the implementation
- Flexible ongoing support options should you need it
- Backed by a full-service implementation firm who brings the same level of expertise for data management and cloud initiatives
