

Time	Format	
7:45 – 8:45	<b>Breakfast and registration</b>	
7.45-8.45	<p><b>Women in transport networking breakfast</b></p> <p>Women in transport networking breakfast Hosted by Women in Trucking Association. Click <a href="#">here</a> to find out more and reserve your place.</p> <p>Hosted by <b>Women in Trucking Association</b></p>	
8:45-9:00	<b>Welcome and interactive ice breaker</b>	
09:00 – 9:20	<p><b>Keynote speech with Castrol</b>  <b>More Circular Lubricants – From Waste Oil to a Valuable Feedstock</b>          -explore how the use of re-refined base oil can reduce the carbon footprint of certain lubricants          -discover how the application of lower-carbon-footprint lubricants can support fleets’ sustainability goals without compromising on engine protection and performance</p> <p>Andreas Osbar, President &amp; CEO, <b>Castrol</b></p>	
09:20 – 09:40	<p><b>Presentation and Keynote fireside chat with Mack Trucks North America</b>          Jonathan Randall, President, <b>Mack Trucks North America</b>          David Shepardson, Transportation Reporter, <b>Reuters News</b></p>	
09:40 – 10:00am	<p><b>Keynote Fireside</b>  <b>Keynote Speech with Windrose Technology</b>          Wen Han, CEO, <b>Windrose Technology</b></p>	
10:00 – 10:45	<p><b>Keynote Panel</b>  <b>Profitability in sustainable HGV transport: illusion or reality?</b></p> <ul style="list-style-type: none"> <li>• Discover how forward-thinking shippers are collaborating with operators to slash total cost of ownership through longer contracts, volume guarantees and operational efficiency to enhance profitability</li> <li>• Optimize your fleet transition strategy: Learn to time your shift to low-emission vehicles perfectly, balancing new technologies with operational needs to increase CAPEX</li> <li>• Discover how to lower OPEX, enhance your reputation, and win new business through smart, sustainable fleet management</li> </ul> <p>Rachel Schwalbach, Vice President, ESG, <b>C.H Robinson</b>          Kate Jotsworth, Head of Growth Enablement – Transported, <b>Maersk</b>          Kurt Neutgens, President and Chief Technology Officer, <b>Orange EV</b>          Moderator – Ben Goossen, Business Development Manager, <b>Forum Mobility</b></p>	
10:45 – 11:15	<b>Coffee and networking meet-ups</b> <i>Sponsorship Available</i>	
11:15 – 12:15	<p><b>Interactive workshop</b>  <b>fuel efficiency</b>  <i>Alternative fuels showdown: strategize hydrogen, biofuels, and renewables</i></p> <p>Martin Rojas, Senior Advisor Americas, <b>IRU</b></p>	<p><b>Interactive workshop</b>  <b>Aligning Shipper Demand to Accelerate Electric Trucks</b></p> <p>Cristiano Facanha, Director Electrification,  <b>Smart Freight Centre</b></p> <p>And</p> <p>Bill Van Amberg, Strategic Advisor, <b>CALSTART and industry</b></p>
12:15 – 12:35	<b>Keynote speech</b>	

	<p><b>The Trucking Industry’s Commitment to Cleaner and Safe Freight Transportation</b></p> <ul style="list-style-type: none"> <li>• Discover how the trucking industry committing to cleaner and safer freight transportation</li> <li>• Understand how Trump 2.0 has impacted these initiatives and what to expect</li> <li>• Unpack the federal and state promises and challenges for medium and heavy duty electrification</li> <li>• Can we sustain the sustainable technology transition without grants and subsidies?</li> </ul> <p>Dan Horvath, Senior Vice President of Regulatory Affairs and Safety Policy, <b>ATA</b></p>	
12:35 – 1:30pm Lunch	Lunch table talks	LightMetrics Limited - Attendance Workshop
1:30 – 2.15pm	<p><b>Keynote panel</b> <b>Fuel the future: alternative and transition pathways for American trucking</b></p> <ul style="list-style-type: none"> <li>• Explore cutting-edge biodiesel, renewable natural gas and hydrogen combustion innovations that are revolutionizing emissions reduction in the US trucking industry</li> <li>• Uncover practical transition fuel strategies to reduce your carbon footprint, enhance fleet efficiency, and position your business at the forefront of America's green trucking revolution</li> <li>• Examine the potential of e-fuels and other synthetic alternatives in creating a circular economy for trucking</li> </ul> <p>Steve Weinberg, Sustainability Leader, Americas, <b>IKEA</b>  Zachary Marchlik, Vice President, Sustainability, <b>UPS</b>  Mike Roeth, Executive Director, <b>NACFE</b>  Nuray Elci, Vice President Renewables, <b>Chevron</b></p> <p>Moderator – Martin Rojas, Senior Advisor, Americas, <b>IRU</b></p>	
2:15 – 2:35pm	<p><b>Presentation by EO Charging</b>  Charlie Jardine, President and Founder, <b>EO Charging</b></p>	
2.35pm-3.20pm	<p><b>Interactive workshop</b> <b>Policy &amp; globalization</b></p> <p><b>Clean freight, big stakes: Will the U.S. lead or lose in the race to decarbonize heavy duty trucks?</b></p> <ul style="list-style-type: none"> <li>• Lessons learned from the APAC region on charging infrastructure, truck availability and vehicle finance</li> <li>• Which elements of California’s approach could be scaled nationwide, and what challenges might other states face in adopting similar strategies?</li> <li>• How are federal and state governments collaborating with private industries and how will this impact your business next year?</li> </ul> <p>Matt Schrap, CEO, <b>Harbour Trucking Association</b></p> <p><i>Join intimate 6-8 person roundtables to collaborate on the geopolitical landscape for USA fleets. Share expertise, learn from peers, and drive meaningful change in a dynamic and interactive discussion</i></p>	
3:20 – 3:40pm	<p>Presentation by Sean Ritchie, Vice President Sales and Pre-Sales, <b>Solera Fleet Solutions</b></p>	
3:40-4:10pm	<p><b>Networking coffee break</b>  Sponsorship available</p>	

4:10 – 4:50pm	<p><b>Panel</b>  <b>Maximize fleet efficiency: cutting-edge strategies for U.S. trucking operations</b></p> <ul style="list-style-type: none"> <li>• Skyrocket ROI with latest advancements in fuel-saving technologies, from aerodynamic enhancements to intelligent powertrain management systems</li> <li>• Unlock the full potential of modern telematics systems to gain real-time insights into vehicle performance, driver behavior, and operational efficiency</li> <li>• Innovative approaches to fleet sizing, vehicle selection and lifecycle management to optimize asset management and procurement</li> </ul> <p>Arun Chickemenahalli, Director of Maintenance R&amp;D - Advanced Vehicle Technology, <b>Ryder System, Inc</b>  Juan Gomez, Senior Director, Transportation Strategy &amp; Optimization, <b>Walmart</b>  Adam Kahn, Chief Marketing Officer, <b>Netradyne</b></p> <p>David Shepardson, Transportation Reporter, <b>Reuters News</b></p>
4:50 – 5:00pm	<b>End of day 1 wrap up</b>
5.00pm-6.00pm	<b>Networking drinks reception</b>

**DAY TWO | 4 June**

Time	Format
08:00-09:00	<b>Breakfast</b>
09:00-09:20	<p><b>Keynote speech</b>  <b>Reimagine the Future Fleet Experience</b></p> <p>As the U.S. fleet industry accelerates toward a digitally enabled, sustainable future, delivering exceptional customer experience must be at the heart of innovation. In this keynote with the Chief Strategy and Transformation Officer of International Motors, Tobias Glitterstam will explore how technology is transforming freight operations—from real-time, efficient logistics and predictive maintenance to the long-term efficiency of battery electric and autonomous vehicles. Join us as we unpack what it takes to future-proof operations while driving uptime in every mile.</p> <p>Tobias Glitterstam, SVP, Chief Strategy &amp; Transformation Officer, <b>International</b></p>
09:20 – 09:40	<p><b>Presentation</b>  <b>The Path to Profitability: Cost Per Mile in Autonomous Trucking</b></p> <p>Xiaodi Hou, CEO, <b>Bot.Auto</b></p>
09:40 – 10:00	<p><b>Keynote fireside chat</b>  <b>A Total, Multi-modal Sustainable Supply Chain</b></p> <p>Joshua Bowen, EVP of Business Development – North America, <b>CEVA Logistics</b></p>
10:00 – 10:30	<p><b>Keynote Panel</b>  <b>Intelligent transportation, amplified. The power of AI and autonomous trucking in shaping America's transportation future</b></p>

	<ul style="list-style-type: none"> <li>• Harness the power of cutting-edge autonomous technology to create a safer, more efficient and more sustainable logistics ecosystem</li> <li>• Latest advancements in advanced sensors and AI-powered systems to detect and respond to potential hazards in real-time, reducing the risk of accidents and improving overall road safety</li> <li>• Reduce fuel consumption, lower emissions and decrease the overall cost of goods transportation – a win-win for business, consumers and the environment</li> </ul> <p>Suman Narayanan, Director of Engineering – Automated Technology Group, <b>Daimler Truck North America</b>  James Cooper, Head of Autonomous Business Development, <b>International</b>  Moderator – Ben Sharpe, Senior Researcher, Policy Analyst, <b>Atlas Public Policy</b></p>
<b>10:30 – 11:00</b>	<b>Networking &amp; coffee break</b> <i>Sponsorship available</i>
<b>11:00 – 12:00</b>	<i>Session details coming soon!</i>
<b>12:00-12:30</b>	<p><b>Keynote Panel</b>  <b>Harness data intelligence for strategic fleet decarbonization and optimization</b></p> <ul style="list-style-type: none"> <li>• Leverage advanced analytics to identify and prioritize high impact decarbonization initiatives, transforming your fleet's environmental footprint while optimizing operational efficiency</li> <li>• Dive deep into cutting-edge tools and techniques for precise emissions tracking and reporting, ensuring your efforts are measurable, verifiable, and aligned with industry best practices</li> <li>• Set, track, and achieve science-based targets that not only slash emissions but also drive operational excellence and boost your bottom line</li> </ul> <p>Manoj Bhalerao, Senior Manager, <b>Hub Group</b>  Nora Hennings, Head of Fleet and Facilities, <b>Sunrun</b></p> <p>Josh Fisher, Editor-in-Chief, <b>Fleet Owner</b></p>
<b>12:30 – 1:30pm</b> <b>Lunch</b>	<b>Lunch</b>
<b>1.30-1:50pm</b>	<p><b>Keynote Speech with Kuehne &amp; Nagel</b>  Heather Loebner, Vice President, Sustainability, <b>Kuehne &amp; Nagel</b></p>
<b>1:50-2:30pm</b>	<p><b>Panel</b>  <b>Power grids and pit stops: mastering the multi-dimensional HGV charging ecosystem</b></p> <ul style="list-style-type: none"> <li>• Leverage a multi-dimensional charging ecosystem to optimize your routes, minimize downtime, and increase payload capacity, boosting your bottom line and meeting tight delivery schedules</li> <li>• Navigate the complex landscape of charging options, from depot charging to en-route fast-charging stations, to minimize energy costs and maximize the lifespan of your electric HGV batteries</li> <li>• Master the intricacies of the evolving HGV charging ecosystem to future-proof your operations, attract sustainability-focused clients, and position your company as a leader in the green logistics revolution</li> </ul> <p>Dan Bowermaster, Senior Program/Area, Electric Transportation, <b>EPRI</b>  Chris Bennett, Vice President, Ev, Energy &amp; Sustainability, <b>Lazer Logistics</b>  Lucy McKenzie, Managing Director, <b>Atlas Public Policy</b>  Dakota Semler, CEO, <b>XOS Trucks</b></p> <p>Moderator – Mike Roeth, Executive Director, <b>NACFE</b></p>

<p><b>2.30-3.00pm</b></p>	<p><b>Networking interactive roundtable</b>  <b>Strategic blueprint for the future of road freight – key takeaways and collaborative discussion</b>  <i>This session will be in an interactive roundtable format. The aim of this session is to discuss key takeaways from the last two days, as well as the challenges and solutions that your business is facing in its road freight strategy.</i></p> <ul style="list-style-type: none"> <li>• Develop a blueprint business model to reduce long-term costs associated with sustainable vehicles</li> <li>• Improve freight strategy with operational efficiency, increase business volume and secure longer contracts and guarantees</li> <li>• Optimize logistics for sustainability to transition to sustainable fleet options now</li> </ul>
<p><b>3.00-3:05pm</b></p>	<p><b><i>Closing Remarks and End of Conference</i></b></p>
