The global hub of SMR & AR leaders

The global market for SMRs is expected to reach \$72.4 billion by 2033, with the recent data center energy crisis driving huge growth potential for SMR players who can provide a scalable, flexible and economical decarbonized solution.

Yet to capture a share of this exponentially growing market and future-proof profits, industry players must overcome F-O-A-K, technological and regulatory hurdles and move projects from planning to execution, via stakeholder visibility and transparency. Only the establishment of stable investments and contracts will enable the market to kickstart deployment and maintain momentum.

Reuters Events: SMR & Advanced Reactor 2025 is the only senior-level meeting point for the SMR community, where 600+ public and private sector leaders from utilities, financiers, reactor developers, technology providers and regulators unite to create meaningful connections, share trusted insights, and obtain lessons-learned to inform your multi-billion-dollar strategy at pace.

Join us to:

- Leverage insights in detailed case studies from first movers to efficiently build, own and operate reactors and overcome supply chain challenges.
- Successfully navigate regulatory challenges and streamline licensing to boost investor confidence in ROI.
- Accelerate scalable deployment through innovative financing initiatives and cultivate trusting relationships with market entrants and current stakeholders.

The mission is clear, the finish line is close, and your competitors have already made headway. Are you going to be next to bring SMRs from concept to deployment?

“
Nuclear energy is safe, reliable, and can help meet the energy needs of our customers for decades to come.”

– Kevin Miller, Vice President of Global Data Center, Amazon

Our world-leading executive speakers for 2025 include:

Jeffrey Lyash
Chief Executive Officer
Tennessee Valley Authority

Clay Sell
Chief Executive Officer
X-Energy

Patrick Leonard
Energy Principal
Amazon

Gwen Parry-Jones
Chief Executive Officer
Great British Nuclear

Sean Sexstone
Executive Vice President,
Advanced Nuclear
GE Hitachi Nuclear Energy

Betsy Higgins
Chief Financial Officer
Oglethorpe Power

Join North America's leading new nuclear summit:

SMR & Advanced Reactor 2025

Unmatched 2025 interactive experience

SMR & Advanced Reactor will gather 600+ nuclear executives under one roof to breakdown one of the most disruptive times in the history of the European industry.

Beyond the top-level speakers and trusted insights on stage, we have created multiple formats to ensure that you can share your thoughts, build meaningful connections and leave the conference with the most productive 2 days of networking possible.

PROBLEM SOLVING HACKATHONS

Dive into hyper-interactive sessions where you work as a team to hack strategic issues. This is your opportunity to shine, share your ideas, and collaborate on transforming concepts into actionable plans.

TACTICAL TAKEAWAY WORKSHOPS

Elevate your event experience by actively participating in our strategic workshops. These tailored sessions are designed to address supply chain dilemmas, shifting from natural gas to nuclear practically and achieving cost reductions for FOAK units.

PEER LEARNING ROUNDTABLES

Forge valuable connections with industry leaders and potential partners. Join a focused gathering of 8-12 like-minded professionals on one table committed to sharing key utility learnings, setting systems for data sharing and capturing economies of scale.

NEW FOR 2025: SPEAKER PLEDGE

Our speakers have committed so you can avoid top-level discussion and ensure you have valuable, impactful learnings to take back to your team.

What you will receive from every speaker:

One real world example that illustrates their point

At least one example of a success or failure

At least one actionable next-step you can implement next week

FOSTER NEW CONNECTIONS WITH CURATED NETWORKING

COMMUNITY MEET UPS

Want to connect with new people that have the same curiosity and interests? You can be sure that you will expand your network when you attend one of our community-specific meet ups which include:

- Utilities, Energy Producers and Data Centers
- Reactor Developers
- Financiers and Investors
- Manufacturing and Supply Chain

WOMEN IN SMR BREAKFAST

An intimate and collaborative discussion focusing on supporting, empowering, and advancing women in the SMR industry with a talk from a female trailblazer.

Leading speakers confirmed for 2025

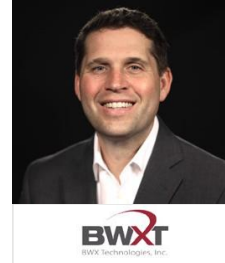

Jeffrey Lyash
CEO
Tennessee Valley Authority

Clay Sell
CEO
X-Energy

Patrick Leonard
Energy Principal
Amazon

Joseph K. Miller
President
BWXT Advanced Technologies

Julie Kozeracki
Director of Strategy
U.S. Department of Energy
Loan Programs Office

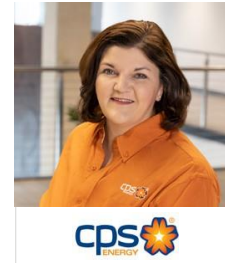

Scott Hunnewell
Vice President of New Nuclear
Program Tennessee Valley
Authority

Richard Voorberg
President – North America

Meet face-to-face with the world's biggest brands:

Key Themes at SMR & Advanced Reactor 2025

Resolving FOAK Risks

Proactively plan, counter and share F-O-A-K risks and mitigate unknown financial and construction issues to take the leap to deployment in the billion-dollar industry.

Acquiring Financing & Funding

Discover how to attract funding, deliver ROI and generate profit to ensure a continuous and growing stream of public and private investment necessary to support deployment globally.

Streamlining Regulation, Permitting & Licensing

Collaborate with regulators, policymakers and utilities to modernize licensing reviews, reduce licensing timelines and create a streamlined process for the incoming influx of projects.

Navigating Technological Hurdles

Gain unprecedented lessons to the standardization, scaling and latest breakthroughs in SMR technology development to secure investor commitment, stay ahead of the R&D curve and ensure you're first to the finish line.

Securing Supply Chain & Workforce

Incentivize the buildout of supply chain, resolve the fuel enrichment chicken-and-egg dilemma, and prevent bottlenecks, to enhance both capacity and security.

Setting the SMR & Advanced Reactor Agenda

DAY ONE 12 MAY		DAY TWO 13 MAY	
Keynotes & Plenary Nuclear Power and Big Tech: Meeting the Surging Data Center Demand Providing Certainty & Visibility to Attract Investors Minimizing Cost Overrun Risks in SMR & AR Deployment		Keynotes & Plenary Streamlining Regulation, Permitting & Licensing Pioneering Progress: Streamlining Regulatory Paths for Advanced Reactor Deployment Securing Success: Leveraging Winning Business Models to Mitigate Risks	
Lunch & Workshops		Lunch & Workshops	
Yellow Stage Finance How do Banks Perceive the Bankability of SMRs? Evaluating Financing Structures for SMR Projects	Blue Stage Technology Accelerating Reactor Design Standardization and Deployment Readiness Enhancing Innovation: Boosting Technological Flexibility and Capability	Yellow Stage FOAK Risks Great British Nuclear – A Case Study of Successive Development and Overcoming First of A Kind Risk Strategic Elements: Uranium Enrichment to Secure Energy	Blue Stage Supply Chain, Fuel & Energy Security The Role of Advanced Nuclear Technologies in Energy and International Security Expanding Horizons: Scaling Up the Nuclear Supply Chain & Incentivizing Capacity Buildout

Sponsorship opportunities

Form long-lasting partnerships and raise your profile

Sponsor the event

Your brand in front of your prospects

We will work with you to get your brand in front of the prospects and clients that can transform your business - from securing investment to technology selection and more.

Be seen as a thought-leader

With hundreds of leaders signing up for our events, your company can be seen as a thought-leader in the space. Whether that be via a panel session, presentation or interactive workshop.

Showcase your solutions

More than ever, we need solutions and with the Exhibition space you can share product brochures, the latest research and business cards with prospects who need it.

Kickstart sales cycles

Whether that be "cold" prospects or old acquaintances, the Networking at Reuters Events will enable you set up meetings with leaders and accelerate your business development efforts.

Deliver on your marketing objectives with:

Keynote Presentations

Gain maximum visibility for your thought-leader and brand with premium positioning on the conference agenda.

Workshops

Connect with sales-ready leads with an interactive session with selected senior-leaders interested in hearing about your product solutions.

Presentations

Deliver thought-leadership and challenge payments to go beyond business as usual.

Panel Sessions

Be seen as a leader in your space with a moderator or panellist slot on one of the panel sessions.

Our In-Person Exhibition

Ensure your brand and solutions are where attendees go to find solutions to their challenges.

Branding

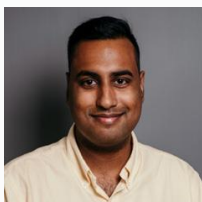

Elevate your brand across Reuters Events SMR & Advanced Reactor, increasing your visibility and engagement with the audience.
