- **COVID-19 Updates for PeopleSoft HCM** – June 18
- **PeopleSoft HCM Configuration Series: Page Composer for Approvals** – June 25
- **Empower your employees through HR Helpdesk, relieving the burden on HR** – August 4

RV's Strategy Spotlight

Like our customers and partners, the PeopleSoft development team continues to persevere during these challenging times. We are committed to deliver on our HCM roadmap by bringing new technology and new features to market. Last month customers started downloading HCM Image 34 and ELM Image 21. Feature highlights include: uptake of PeopleTools 8.58 capabilities and the new Fluid user interface stylesheet, Kibana dashboards and analytics for HR and Recruiting leaders, Dropzone capabilities for classic setup pages, HR Notifications enhancements, new dashboards and contextual tiles for HR/Benefits/Payroll, Fluid WorkCenter for Benefits Administrators and ACA Administrators, Query Data Masking, Fluid ELM Instructor pages, among many others. See the [image highlights video](#) on our Oracle PeopleSoft YouTube channel for more information.

Over the next few weeks, we will begin updating the [Planned Features & Enhancements](#) page and the [PeopleSoft Ideas Space](#) to reflect the new roadmap items that we are targeting over the next 18 months. I encourage your team to review those items and connect with my Strategy team to learn how and when will be the best time to get involved with the [focus groups](#) to share your input. As mentioned in last month's newsletter, we have prioritized enhancing the PeopleSoft HR - Health & Safety module to provide a fluid employee self-service component, streamline the Administrator incident/injury entry pages, among other enhancements. Our development team is actively working on these enhancements and we hope to share with you in our next newsletter the target delivery image.

Finally, I wanted to congratulate the [College of Lake County](#) who received an Oracle Feature Innovator badge for their successful deployment of Fluid Delegations in a matter of weeks after that feature was made available in our HCM release. If you have implemented a recently delivered feature in your production environment, check out our [Feature Innovator Program](#) page to find out how you can be nominated for a Feature Innovator badge as well.

Customer Corner

We want to highlight the great accomplishments our customers this month.

If your organization has done something great (upgraded, deployed fluid/new functionality), [please let me know](#) so you can get your well-deserved recognition.

Focus Group Updates: If you are interested - [Click this link](#) for list of HCM Focus Groups

- **Profile Management** - We are finishing up Fluid Profile Search Match and Compare functionality development.
- **Onboarding/Offboarding** - We met and discussed additional enhancements for pre-boarding. We are continuing our design requirement discussion for pre-boarding.
- **ePerformance** - Focus Group reviewed designs considerations for enhancements to business objectives. We will be working on the modernization of ePerformance and looking for customer feedback, consider joining our focus group.
- **ELM** - ELM focus group did not meet in May, but we did release an image. With this image we simplified, modernized, and fluidized the instructor tasks and brought the instructor tasks to the phone and tablet. Now instructors can easily mark attendance and grades easily from any device.
- **U.S. Federal** - Special guest, Lisa Chow, from PeopleSoft HCM Product Strategy did a demo of the Fluid Delegations Framework enhancements for the focus group.
- **Chatbot** - Demo'd the in-progress, Employee Directory Assistant chatbot using Twilio. Also, we walked customers through steps to build a real time chatbot in ODA using Chatbot Integration Framework were .
- **Chatbot Partner** - We had an open discussion to address customer requirements and expectations from PeopleSoft chatbots and any supplemental assistance required by partners for PeopleSoft chatbot implementation.
- **Health and Safety ***NEW***** -Focus Group met and provided enhancement requirements for new Health & Safety Self Service feature. If you are interested, contact Julie.Alonso@oracle.com.

***** Important Note ***** Focus Groups are open to all customers; calls are typically once a month for an hour or as needed. Your organization needs to have a current CPCA (Customer Participation Confidentiality Agreement) since Oracle discloses future design and prototypes.

- **United States – EEOC** has delayed the reporting of EEO-1 2019 and EEO3 and EEO-5 2020 until 2021
- **United States** – The updated Voluntary Self-Identification of Disability 503 has been released by the OFCCP (effective 8/4/2020).
- **United Kingdom** – HM Revenue & Customs has published specifications for employer substitute form and PAYE draft forms of P60 for the fiscal year 2020-21.
