Waterproofing & Surfacing Solutions

Siplast offers SBS-Modified Bitumen & fast-curing liquid-applied PMMA waterproofing & surface protection solutions.

High-quality products, decades of experience and know-how paired with comprehensive and professional service make Siplast the partner to turn to when it comes to premium waterproofing & surface protection.

Select Contractors

Quality products are meaningless without a quality contractor. Siplast waterproofing systems are installed exclusively by Siplast Select Contractors. These independent professionals have met the qualifications of one of the best contractor certification programs in the industry - ours.

Warranty

Siplast products offer proven quality and performance. We offer comprehensive warranty protection based on system design, backed by the largest roofing and waterproofing manufacturer in North America.

Premium Waterproofing

Fully reinforced system options for use over occupied space.

Premium Protection

Specifically designed to handle even the most demanding challenges.

Faster Return to Service

Leave the inconvenience of multi-day installation behind with PMMA.

Design Flexibility

PMMA systems can provide endless decorative design options.

Heavy Foot Traffic

Long term durability and shore hardness are a result of our premium formulations.

Slip Resistance

Surfacing options provide slip resistance and a decorative element.

PMMA Concrete Protection for Parking Decks

Extends Service Life

Helps extend the service life of surfaces that do not require a waterproofing system.

Efficient Application

Aggregate, color & wearing layer in one. Catalyze, mix & go!
